STATIONERY

Margaret Clavell

www.margaretclavell.com | margaretclavell@hotmail.com | Portfolio 2026

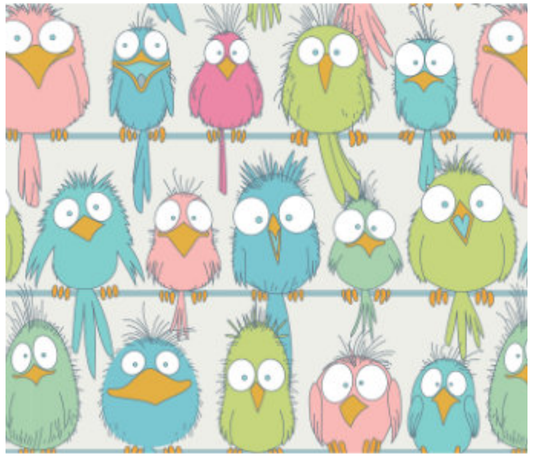

Margaret Clavell is a surface pattern designer based in the south west of England in the United Kingdom. She specialises in creating digital repeat patterns using Adobe Illustrator. Her love of nature is obvious in the beautiful florals that she creates in both bold colours and muted tones, perfect for home decor. Margaret also designs more simplistic patterns which would be ideally suited to stationery products. All of Margaret's artwork is available to license.
